PROFESSIONAL EXPERIENCE

Web Developer - Angular - Intern Project : Job Portal System

Aitrich Technologies PVT Ltd. | 2023 - Present

- Developed a responsive web application using Angular, leveraging Angular services and components to ensure seamless functionality and enhance user experience.
- Worked collaboratively within a team to meet project deadlines, contributing to the collective effort in delivering a successful web application.
- Led the development of a comprehensive job web portal, focusing on enhancing the job search and recruitment process for users by implementing key features such as advanced search options and job listing details.
- Enabled companies to create profiles showcasing their mission, culture, and job openings, incorporating employee reviews and ratings for increased transparency.
- Implemented a user-friendly application process for job seekers, allowing direct application through the portal and attachment of resumes and cover letters for a comprehensive application.

TECHNICAL SKILLS

- **Agile Methodology/SDLC:** Employed agile methodology within the team to foster collaboration, adaptability, and efficient project delivery
- **Angular CLI:** Competence in using Angular CLI for creating, building, testing, and deploying Angular applications.
- **RESTful API Integration:** Experience in integrating Angular applications with RESTful APIs for data retrieval and manipulation.
- **Version Control/Git:** Familiarity with Git for collaborative development and effective code management.
- **Responsive Design:** Ability to create responsive and mobile-friendly user interfaces using CSS frameworks like Bootstrap or Flexbox.
- **HTML/CSS:** Proficient in HTML for structuring web content and CSS for styling seamlessly integrating with Angular components.
